Vinification:	An incredibly mild summer with above average rainfall is largely responsible for prolonging the harvest which ensured slow, even ripening of the fruit. To achieve optimum ripeness the fruit was harvested in the cool of the night preserving delicate fruit flavours. After picking, the fruit was crushed and fermented in static tanks with automatic irrigators. Selected parcels received American oak treatment during fermentation to add complexity and structure.		
Appearance:	Crimson red in appearance with youthful hues.		
Bouquet:	Aromas of sweet blackberry, cherry and plum fruit with hints of earth, leather and spice captivate the senses.		
Palate:	The wine is complimented with a round fleshy palate of sweet dark fruits, mixed spice and fine lingering tannins.
