

**PORTIA ROBLE
2022**

D.O.	Ribera de Duero
Vintage classification	Very good

VINTAGE CHARACTERISTICS

The 2022 harvest was influenced both by high temperatures in June, July and August, and scarce rainfall. These two factors caused the volume of harvested grapes to be lower than in other years. This was offset by the balance between sugar and acidity in the grapes and their excellent health upon arrival at the winery. The latter allowed extraordinary wines to be produced: reds, whites and rosés. The 2022 harvest in the Ribera del Duero region was brought forward by 10–12 compared to the previous year, and began on 28 September.
