## Alpha Carmenera - (Wooden Case)

### 2018

- Category:** WINE
- Style:** RED WINE
- Variety:** CARMENERE
- Region:** CURICO VALLEY
- Vintage:** 2018
- Volume:** 750ml
- Vineyard:** The vineyards that produce our Alpha Carmenera are located in two very important zones of the Colchagua Valley: Apalta and Marchigüe. Apalta is diverse, with some areas strongly influenced. Leaves closest to the bunches are removed in early January, leaving the grapes completely exposed, to achieve even ripening and good levels of acidity and phenolic potential.
- Appearance:** Deep ruby-red with an eye-catching, violet hue.
- Bouquet:** On the nose it's complex and elegant. Pronounced, delicious aromas of ripe red and black fruit melt into inviting chocolate, mocha and brioche.
- Palate:** The nose is well-balanced, with a little spice in the background. The French oak lends some toasted notes that complement the aromatic profile, while adding a slight sensation of sweetness. On the palate, it shows itself to be a wine of great Carmenera character and typicity, with rich acidity that is well balanced with the generous body. The tannins are velvety and give way to a long memorable finish.

#### Technical Analysis:

- Alcohol:** 14.50%      **Packaging:** 1 x 750ml
- Hancocks Product:** 90373
